### ABOUT ME

Hello, I'm Berke Dündar, a dedicated software engineer with a specialization in ABAP Development and BigData. With a passion for solving complex problems and a keen eye for detail, I strive to create efficient and reliable software solutions.

As a fast learner, I am constantly eager to expand my knowledge and stay up-to-date with the latest industry trends. Alongside my technical expertise, I possess strong communication skills, allowing me to effectively collaborate with team members and stakeholders to deliver high-quality results.

It's my goal to make a positive impact through my work and contribute to the ever-evolving field of software engineering.

### EXPERIENCE

#### ABAP DEVELOPER - TECHNICAL CONSULTANT

Sovos - Istanbul (Eurasia) - June 2021 / Current

- During my tenure, I successfully undertook ABAP developments for Sovos e-regulation ABAP products, catering to specific requests and providing comprehensive support. Additionally, I actively contributed to diverse installation and migration projects across Europe and Asia. Throughout these experiences, I gained valuable expertise in developing solutions for Turkey, Italy, India, Poland and England, delivering impactful contributions to the respective products.

#### BUSINESS DEVELOPMENT SPECIALIST

Rasyona Information Technologies - Istanbul - Oct. 2019 / Jan. 2021

- In my role as a Business Development Specialist, I spearheaded the creation of numerous solutions for Data Monitoring and Business Intelligence projects. Leveraging my expertise, I successfully developed robust Data Mining solutions by extracting insights from SAP as well as multiple other databases.

#### FREELANCER FULLSTACK OOP DEVELOPER

Turkey - 2011 / 2019 - Worked on multiple platforms and companies

### **BETEK BOYA VE KİMYA SANAYİ A.Ş. / E-REGULATION SOLUTIONS**

at Sovos / 2023 / TR e-invoice & e-archive & e-ledger

- I successfully led technical side of the e-Regulation projects at above companies, ensuring compliance with Turkish e-government regulations. These projects involved integrating e-invoice, e-archive, e-despatch and e-ledger systems, utilizing Sovos products. As the Technical Consultant, I specialized in customizing data for XML, designing with XSLT, managing Soamanager connections, analyzing API requests and responses, and providing migration solutions and issue resolutions. Our efforts streamlined our customers operations, enhancing efficiency and legal compliance.

### **SHELL & TURCAS PETROL A.Ş. / E-RECORD**

at Sovos / 2023 / TR e-record & custom ABAP report development

- I actively participated in the Shell & Turcas Petrol A.Ş. e-Record project upon joining, conducting analyses on existing reporting algorithms. I modified data mappings which identified wrong on report checks in the data addressing processes. Implemented updates and corrections on report outputs. To enhance and expedite the data analysis processes, I created custom reports that contributed to streamlining and improving the overall process.

### **CUSTOM PRODUCTION TRACKING / CRM**

as Freelancer / 2016 / TR e-record & custom ABAP report development

- Website & Production management system specially designed for Tiryaki Spor company. It is a CRM system that follows the design, cutting, printing, sewing and packaging processes starting from the first time the order arrives. It maintains interdepartmental communication by integrating the work of each department in its own job responsibilities. With the admin login, the entire process can be tracked and managed through summary panels.
